## *Mission*

To provide value-based education and mould the character of the younger generation through a system of wholesome learning, so that their earnest endeavor to achieve progress and prosperity in life is matched by an ardent desire to extend selfless service to society, one complementing the other.

## *Vision*

We envision a world endowed with the wealth of knowledge and strength of discrimination (Viveka). We envision a system, which is a healthy breeding ground for the sprouting, culturing and dissemination of the whole gamut of knowledge in a wholesome and holistic manner for the well-being of mankind. We envision a human being empowered with wholesome knowledge, which makes him an enabler and facilitator in the deep search and striving of every human being for that knowledge. We envision a system where in there is a great interplay and exchange of ideas, thoughts, feelings and actions which develop people empowered with noble character, and wholesome value. They go out in to the fields of action to build a world of love, harmony, peace and knowledge. They follow the path of Dharma and give a clear direction in every thought and human behaviour.

## Our Chancellor

Sri Mata Amritanandamayi Devi

*There are two types of Education*  
**Education  
for Living.**  
**Education  
for Life.**

*“Studying is a process, like the bud unfolding into the beautiful  
fragrance spreading flower. Understanding this, we  
should approach our topic of study with love and patience. Knowledge is  
like a river. Its nature is to constantly flow. Wherever it can flow, it does so,  
nourishing culture. On the other hand, the same knowledge,  
if devoid of values becomes a source of destruction for the world.  
When values and knowledge become one, there can be no more  
powerful instrument for the welfare of humankind. There are two  
types of education: education for a living and education for life.  
When we study in college, striving to become a doctor, a lawyer, or an  
engineer, that is education for a living. But education for life requires a  
deeper understanding of the world, our minds, our emotions and ourselves.  
Amrita University provides education for life which is  
much more than education just for living.”*
